On January 27, 2003, a group of **Transcon, Inc.** employees successfully completed the course, **INTERNAL AUDITING: Mini-Audits® for Maximum Results**. Tom Fazekas, from KAVON International, Inc., conducted the course.

During the course, the students were introduced to the concept of internal auditing, its importance to **Transcon, Inc.** in transitioning from their ISO 9001:1994 registration to ISO 9001:2000. The students participated in a number of exercises that reinforced the concepts being taught.

Transcon, Inc. was founded in 1958 to design and build conveyor systems for industry in the United States and abroad. **Transcon** was the outgrowth of many years' experience by its founders in design, manufacture and application of the varied and important types of conveyors. **Transcon's** customers are primarily in the metal working industries.

Since its modest beginning, **Transcon** has had a rapid growth in sales and has produced many large conveyor systems for use in the automotive and steel industry, over a wide area of the United States and Canada. **Transcon** is qualified to design and fabricate large or small units of unique design and complete systems for almost any type of application.

Transcon, Inc. is registered to the ISO 9001:1994 quality standard and is upgrading to ISO 9001:2000.
