TRANSCON, INC.

8824 Twinbrook Drive
Mentor, Ohio 44060

The employees of Transcon, Inc. displaying their hardfeared ISO 9001 flag.

Congratulations are in order for Transcon, Inc., located in Mentor, Ohio. In December 2000 they received their certification to ISO 9001 from Smithers Quality Assessments, Inc. Pictured above are all of the employees at Transcon, Inc. during the flag ceremony on February 8, 2001 when Frank Novak (KAVON International President) presented the ISO 9001 flag to John J. Musial (President) and John L. Musial (VP Operations).

Transcon, Inc. was founded in 1958 to design and build conveyor systems for industry in the United States and abroad. **Transcon** was the outgrowth of many years,, experience by its founders in design, manufacture and application of the varied and important types of conveyors. **Transcon,** customers are primarily in the metal working industries.

Since its modest beginning, **Transcon** has had a rapid growth in sales and has produced many large conveyor systems for use in the automotive and steel industry, over a wide area of the United States and Canada. **Transcon** is qualified to design and fabricate large or small units of unique design and complete systems for almost any type of application.

If your company is seeking registration to the ISO 9000, QS-9000, AS9000, or ISO 14000 quality standards and need some assistance, give us a call at 888-637-9398.
